Secure oil drum alarm probe for Secure alarm

Date : 03/2020
Version : original

Page : 1/1

Designation

The Secure oil drum alarm probe is intended to be used with Secure alarm for giving a high level alert in a static storage oil drum.

- **High level alert** to help avoid further filling of the oil drum and an overflow from occurring. Designed for waste oil storage systems when the user needs to be aware when the container needs to be emptied

Application

Suitable for use with oil drum.

Technical specifications

- Connection : G3/4" M BSPT steel drum
- Construction : Buna, nylon & polypropylen
- Cable : 5 m PVC
(max. 50 m for mains and max. 20 m for battery version)
2 x 22AWG (0,65 mm²)
- Temperature : -20°C / +80°C

	Weight Kg	Item no.
5m Secure oil drum alarm probe	0,50	308 208

Warranty

12 months provided fitting and operating instructions are observed.
