

## SAFETY ENVIRONMENT

### Technical datasheet

Datasheet N° : SECENV-ALARM WHISTLE

Product code : 308 120 / 308 121

## ALARM WHISTLE

Date : 03/2020

Version : Original

Page : 1/1

#### Designation

As acoustic overflow sensor protection for storage tanks containing heating oil or diesel EN590.

Maximum filling level indicator. During filling, a well audible whistling noise can be heard. The noise stops as soon as the maximum filling level is reached.

Different external threads ensure easy assembly of different tank connectionx.

#### Technical specifications

The max. filling height can be adjusted by shortening the sensor hose.

Max. sensor hose length:

When using G 1 1/4" F = 240 mm

When using G 1 1/4" M = 240 mm

When using G 1 1/2" M = 270 mm

Min. filling flowrate = 20 LPM

Max. filling flowrate = 1200 LPM

#### Characteristics & standards

· Complies with VLAREM II (Belgium)

#### Warranty

12 months provided fitting and operating instructions are observed.
